Enjoy warm food and drinks while watching the stage.

About the Japan Cat Club

The Japan Cat Club (JCC) is an organization that issues pedigree certificates and manages cat registry services. It is operated by the Central Kennel Cooperative Federation (CKC), a cooperative corporation authorized by three government ministries: the Ministry of Agriculture, Forestry and Fisheries / Kanto Regional Agricultural Administration Office, the Ministry of Economy, Trade and Industry / Kanto Bureau of Economy, Trade and Industry, and the Ministry of the Environment.

Since 2011, we had been providing pedigree and cat registry services under the name Asia Cat Club (ACC). However, because the "Asia Cat Club" trademark was registered under an individual's name, it became difficult to continue operating under that title.

As a result, on March 11, 2024, we began operating under a new name, the Japan Cat Club (JCC). CKC will continue its efforts to meet the expectations of all our members.
